BACK GROUND

SGT TECHNICAL (U) LIMITED is one of the latest robustly growing technical safety firms practicing up to date technology and implementing tested systems.

Instituted in 2015 as an in house consultancy company SGT relied so much on systems maintenance from global systems suppliers

While our focus tends to remain with large corporate clients who require targeted and specialized services, we recognize that customers want and expect a "hands-on" approach. We therefore ultimately serve the individual at the pyramid bottom.

After experience the company was fully incorporated and has since served in the same capacity to related but very different organizations depending on customer needs and suitable solutions

The Company has since then enjoyed significant growth establishing a strong presence and a respected name in the technical security systems industry, not least as a result of the Company's commitment to the principal of credible and dependable solutions systems.

We are a Ugandan indigenous company developed to understand organizational technical security needs and definitely tailor solutions to the same direction as a tool to fix them profitably forever.

ABOUT US:

Mission statement: To be a one stop center providing the safest security equipment, service and technical advice to people in all capacities

Vision statement: To be the leading security and safety systems and service provider in Africa

COMPANY VALUES:

Trust: We deliver what our customers expect, when they expect it. When the stakes are highest, we are at our best. It is a responsibility we own take seriously.

Respect: We like to share – ideas, responsibility, and success. We are a team, a connected business, and we value the work and contributions of each other

Accuracy: We deliver at our utmost best such that we give a service/product in its best form such that it befits the client needs as expected

Professionalism: We practice professionalism in a form legally approved and one that satisfies client need with flexibility.

WHY SGT

Our team is led by a hands-on, operations-focused management team based in Kampala and within reach such that any immediate duties can be responded to

We have the necessary experience since we are indigenously designed we know all the challenges and we have what it takes to solve them within client needs.

We have unique products from well-known sources supplied on time depending on client need and arrangement.

We customise solutions to client needs such that we solve these challenges indefinitely and in a befitting client setup
